

IMPORT SYSTEM OPERATOR CERTIFICATE Windows 10

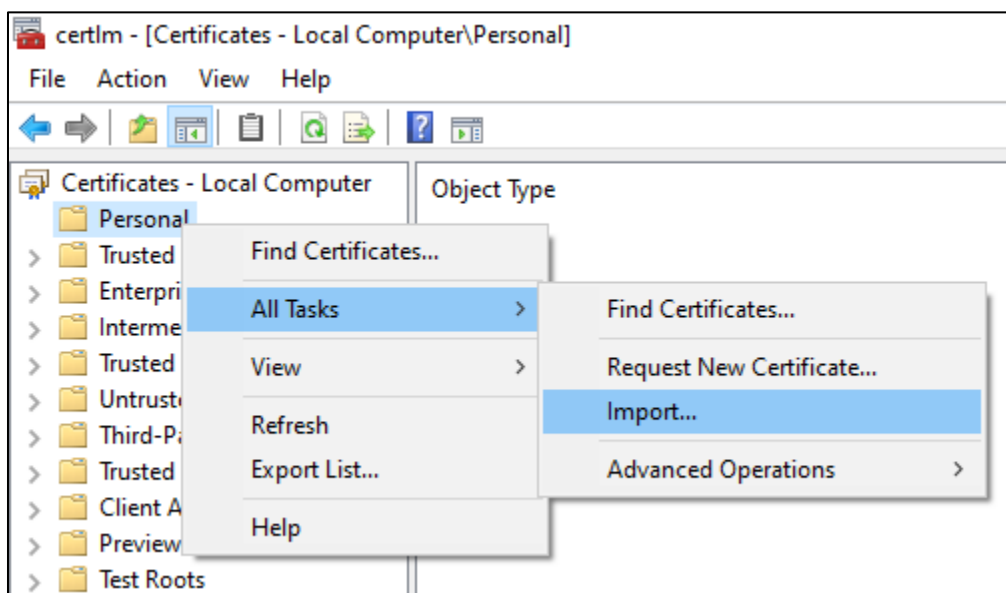

1st STEP:

Search for the “**Manage user certificates**” in Start menu.

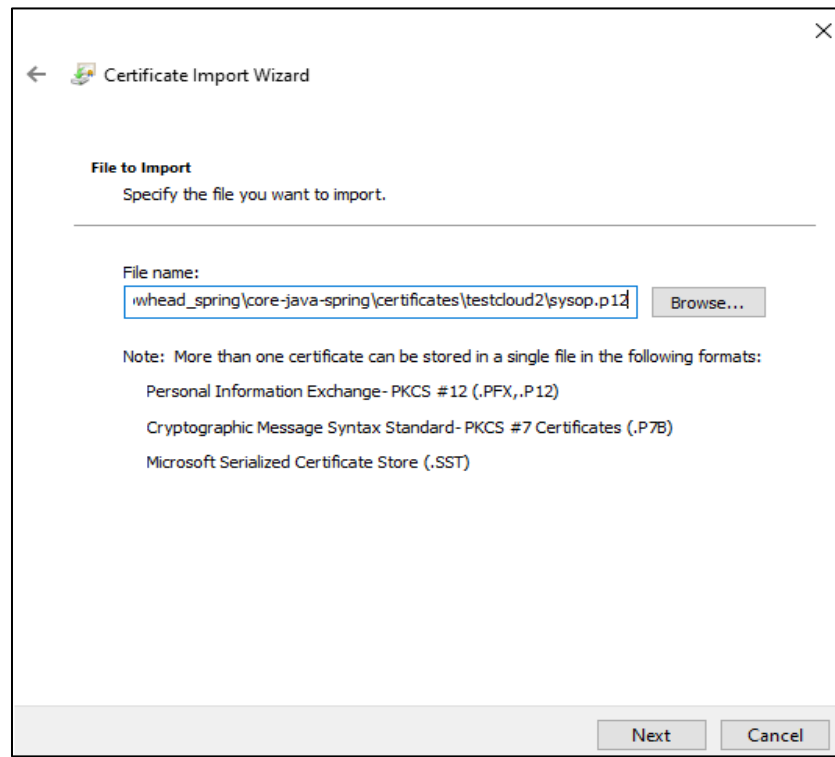

2nd STEP:

Right click on “**Personal**”, then choose “**All Task**” -> “**Import**”

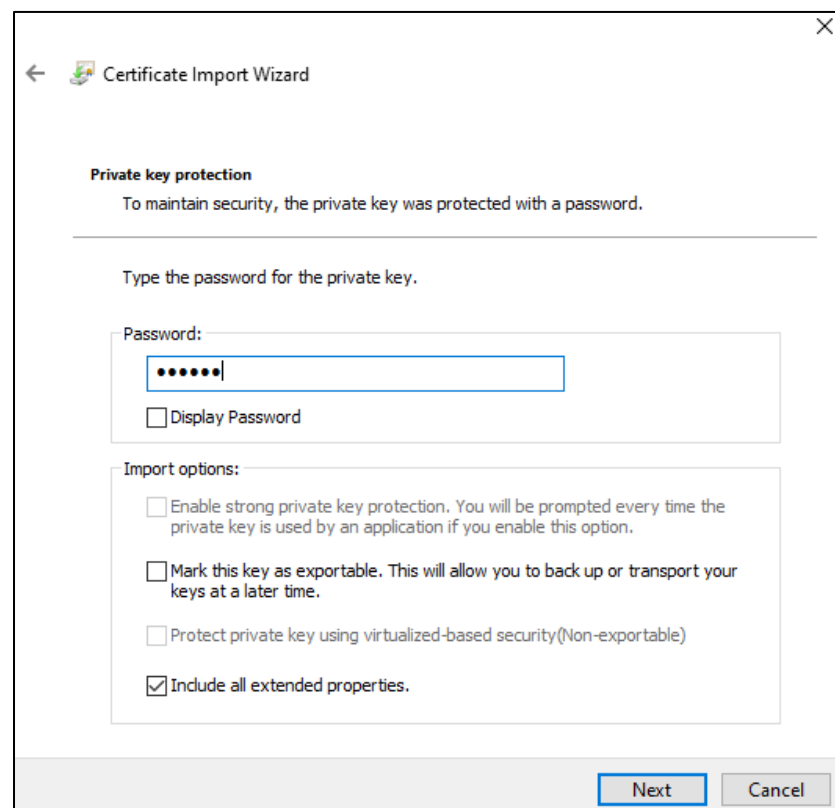

3rd STEP:

Browse your **sysop.p12** file, or use the provided one for testing purpose (*location: core-java-spring -> certificates -> testcloud2*).

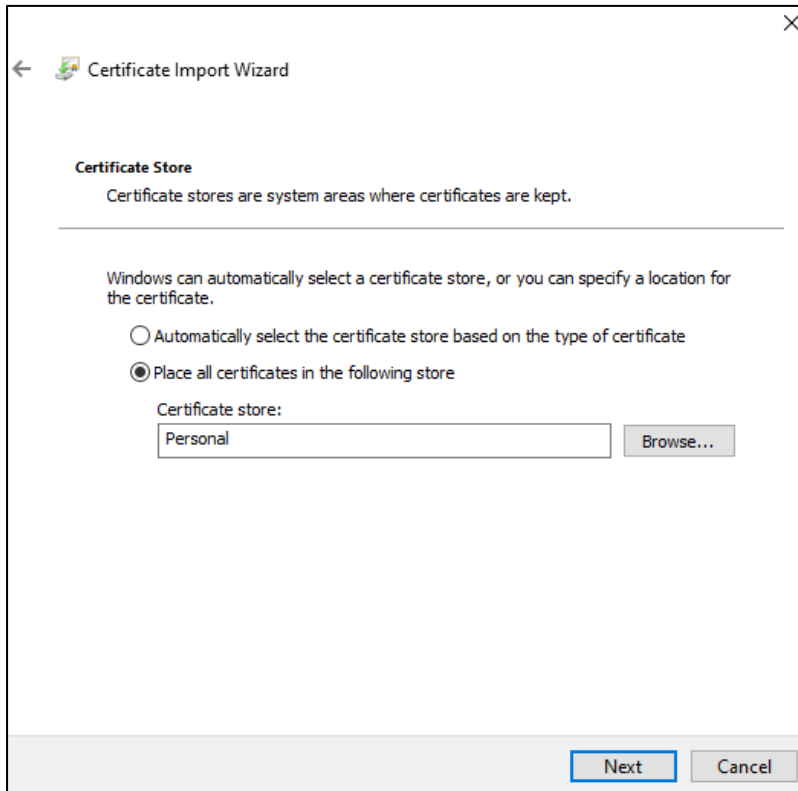

4th STEP:

Enter the password. (*Test sysop password: 123456*)

5th STEP:

Select “**Personal**” certificate store.

6th STEP:

Hit finish.
